In accordance with the agreement, AKT Holdings S.à r.l. fully compensated this management remuneration paid by the Company.

Decision-making process and main principles on remuneration

On the basis of a proposal submitted by the Nomination and Remuneration Committee, the Company's Board of Directors decides on the salaries, short- and long-term incentives and other benefits received by the CEO and the Executive Team. The remuneration of the CEO and the Executive Team consists of a fixed basic salary, other benefits, annual short-term incentives and long-term incentives, such as share-based incentives and pension schemes.

Long-term Incentive Plan

The Board of Directors of Asiakastieto has established an incentive plan for the management of Asiakastieto. The plan is based on the Company's management making individual investments in Asiakastieto's shares and the opportunity for the Company's management to accumulate further shares as a reward on the basis of meeting long-term performance criteria and a commitment to the Company. In order to participate in the plans and receive a reward from the plans, the members of the Company's management are required to acquire an amount of shares determined by the Board of Directors. Any shares acquired above the amount of shares determined by the Board of Directors are not entitled to a reward. The long-term incentive plan contains two elements: 1) a performance based share plan and 2) a matching share plan.

In general, no reward shall be paid if the employment or service contract terminates before the reward payment. Any rewards shall be paid partly in Asiakastieto's shares and partly in cash. The cash proportion is intended to cover taxes and tax-related costs arising from the reward to the participants.

The participants must retain at least 50 per cent of all net shares received on the basis of the plan until the participant's share ownership equals his/her annual gross base salary. Such number of shares must be held as long as the participant's employment or service at Asiakastieto continues.

The plans are directed to the members of the Executive Team. The rewards to be paid out through the performance based share plan and the matching share plan, correspond to the value of approximately 127,500 shares at a maximum (including also the cash proportion). The maximum estimated rewards have been calculated based on the minimum of the preliminary price range in the personnel offering in connection with the Company's listing and with the assumption that the performance based share plan criteria is achieved to its maximum.

Matching Share Plan 2015

The members of the Company's management have subscribed for a number of shares in the personnel offering (the "**Personnel Shares**"), which was a prerequisite for participating in the long-term incentive plan. The acquisition of the Personnel Shares within the matching share plan entitled the participant to receive one additional share (a matching share) for each Personnel Share within the plan as a reward in four years' time, provided that the participant's employment or service at the Company continues and the shares acquired within the plan are still held by the participant at such time.

Performance Share Plan 2015

Additionally, the plan includes the possibility for the members of the Company's management to be rewarded further Shares based on set performance criteria. The reward for the performance period March 2015–March 2018 shall be based on the total shareholder return calculated on the Asiakastieto share. Any earned reward shall be paid out to participants after the end of the performance period. The commencement of subsequent performance periods, the participants therein and the performance criteria thereof will be subject to separate decisions by the Board of Directors.

Short-term Incentive Plan

Management's short-term incentives are based on the opportunity to receive an annual performance bonus. The size of this reward is up to 80 per cent of the annual salary of the member of management and up to 100 per cent of the annual salary of the CEO. The amount of the bonus depends on achieving the financial and operational targets specified at the beginning of each year and on personal performance.
